OUR MISSION & VISION

Simba Portfolio Lodges is a group of lodges located near the main National Parks and Conservation Areas in northern Tanzania; offering access to some of the most awesome landscapes and wildlife packed eco-systems on earth.

We strive to serve our guests in an environment that provides for relaxation and the promotion of physical well-being. We also provide opportunities to learn about the natural history of Tanzania while supporting the areas where our lodges are located with good conservation practices and encouraging the creative endeavours and personal development of our entire team.

“That which is good is never finished”

Tanzanian Proverb

WILDLIFE & WILDERNESS

It's no secret that Tanzania has the lion's share of wildlife on the African Continent. Home to the largest migration of ungulates on the planet, the incomparable Serengeti eco-system, the unique and stunning Ngorongoro Crater, an active volcano and much more, Tanzania is an adventure lover's dream come true.

Nothing compares to watching a baby elephant "mock charge" a safari vehicle, or lion cubs wreaking havoc as the pride tries to sleep. At Simba Portfolio we're all about hospitality in the wilderness and we invite you to join us in some of the most memorable surroundings you'll ever encounter.

"To monitor the daily routines and life cycles of selected mammals is to engage the African wilderness intimately, to savour millions of years of evolution and the last stronghold of the ecosystem in which humanity itself originated —as a mammal species"

Edward O. Wilson

ESCAPE TO THE WILDERNESS...

Set on top of a hill with 360-degree views across the Serengeti plains, near the Ft Ikoma Gate of Serengeti National Park, **Serengeti Simba Lodge** is an ideal base for exploring the wilderness. While at the lodge nightly campfires and performances of the “Simba Dance Troupe” add to the experience of spectacular sunrise and sunsets.

| 21 rooms | Swimming pool |
| Overlooking Serengeti plains | Free wi-fi in common area |
| Solar energy & hot water | Viewing deck |
| Family Rooms | In the Migration path |

“I was stolen away by the amazing views. I could see a migration of zebras far away; they looked like infants walking, as I looked closely through the clear glass window I felt as if I was walking with them.”

Serengeti Simba Guest

"I woke up at dawn and watched herds of wildlife, including elephants, marching across the plains. The food was great and the staff was very professional and sweet."

ENJOY PEACEFUL SERENITY..

Eco-friendly **Karatu Simba Lodge** is situated next to the Ngorongoro Forest in rural farmland midway between Lake Manyara National Park and the Ngorongoro Crater. Pastoral views across miles of farmland to the distant Mbulu hills are ubiquitous and night-time sounds include forest residents such as hyena, montane night jar and bush baby.

Free wi-fi in common area

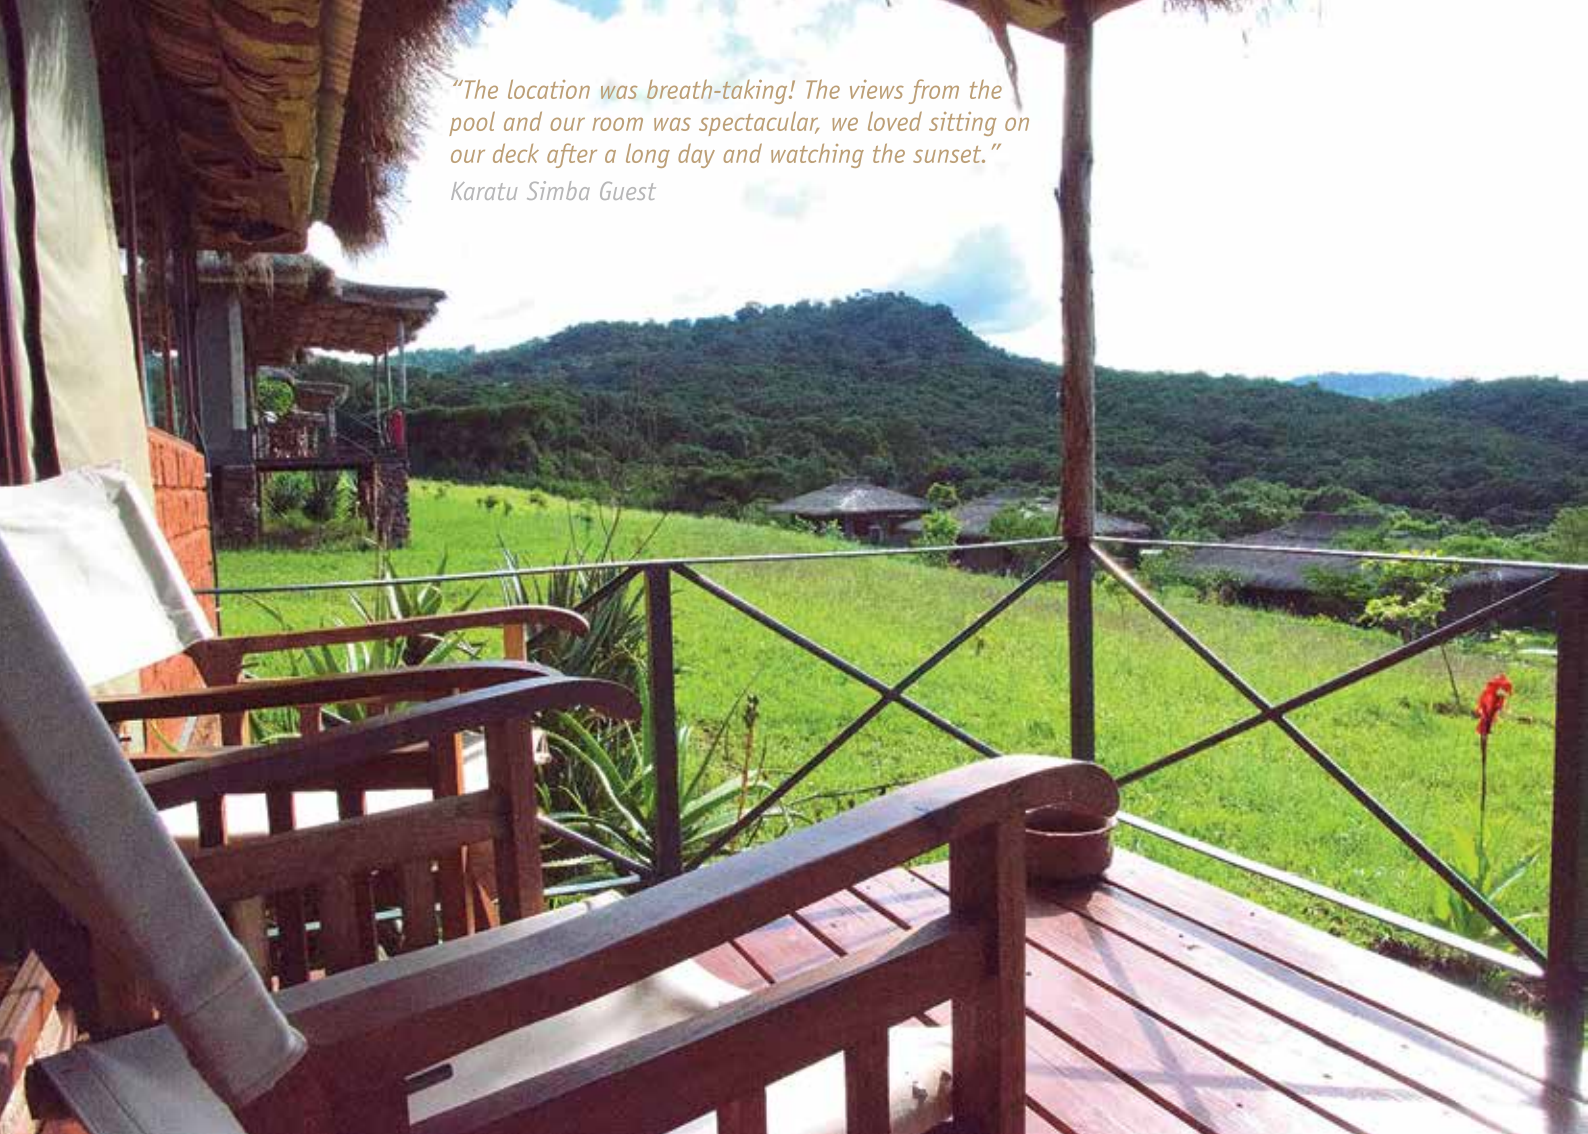

Close to Lake Manyara

Cultural activities in the area

"The rooms are great, I still remember being amazed at the views from my bed. The lodge is located next to the Ngorongoro forest and so one can really enjoy the sights and sounds."

Karatu Simba Guest

A scenic view from a wooden deck overlooking a lush green valley. In the foreground, there are wooden chairs and a railing. The middle ground shows a vibrant green field with a small thatched-roof building. The background features rolling hills under a bright sky with scattered clouds. A single red flower is visible in the field on the right.

"The location was breath-taking! The views from the pool and our room was spectacular, we loved sitting on our deck after a long day and watching the sunset."

Karatu Simba Guest

...EXPERIENCE THE WILD

Located near the new Sangaiwe Gate to Tarangire National Park and adjacent to the park and a Wildlife Management Area, **Tarangire Simba Lodge** has views to nearby Lake Burunge, acacia woodlands and savannah. Tarangire is an amazing eco-system, a virtual wildlife oasis in the dry season, beautiful and exciting all year round.

24 classic luxury tents	Bordering Tarangire NP
Outdoor showers	Large swimming pool
Solar energy & hot water	Platform for views and sundowners
Family tents	Free wi-fi in common area

"I loved the design of walkways and raised tents... far beyond the expectations I had. I was able to wake up to a breathtaking view, and visit the beautiful decking area with swimming pool for breakfast in the morning...a very magical place."

Tarangire Simba Guest

"The birds are incredible, in the morning two hornbills woke us up by gently knocking on the window. Beautiful and peaceful experience!"

Tarangire Simba Guest

OUR PRIDE

Simba Portfolio Lodges were the inspiration of a third generation Tanzanian Sikh family from Moshi. Their commitment to Tanzania and the exceptional wildlife and wilderness it harbours, along with a genuine love of the bush, led to the concept of beautifully designed lodges offering excellent service and value in some of Tanzania's most sought after safari destinations.

All the lodges are designed in a comparable fashion with a focus on comfort, simple yet beautiful furnishings, amenities, swimming pool, free wi-fi and excellent service. Simba Portfolio is proud of the fact that the majority of employees at each lodge come from the surrounding community and have been trained on site to high standards.

It's our greatest wish that our visitors enjoy their safari experience to the fullest, fulfilling our promise of 'Wilderness and Hospitality'.

COMMUNITY AND ENVIRONMENT

"The greater the number of resident people and visitors who understand the African environment at the level of animal behaviour, the more likely is the environment to be saved."

Edward O. Wilson

We're committed to business practices that preserve local peoples, land, and wildlife, so that Tanzania can continue offering a unique tourism experience. We respect our environment and recycle, reuse, and reduce our waste wherever and whenever we can. Our relationship with the villages and rural areas surrounding our lodges has been strengthened by our decision to recruit, train and hire people from our neighbourhoods.

We also strive to assist with local projects and needs such as schools and clinics wherever possible. In this way we are partnering with our communities, workers and local government as contributing citizens and fostering the real spirit of responsible tourism.

"Thanks a lot for supporting Umoja Primary School, Karatu District. Students, teachers and parents are very happy with what you did in 2013 & 2014. The pre-primary schoolroom is now in use and we welcome you and your visitors to see the project at any time. Thank you!"

James Ndosi, Head Teacher
